

FSDragCoefficientModel

```
graph BT; Churchill[Churchill] --> FSDragCoefficientModel[FSDragCoefficientModel];
```

The diagram illustrates a class inheritance relationship. At the top, a white rectangular box with a red border contains the text "FSDragCoefficientModel". Below it, a gray rectangular box with a black border contains the text "Churchill". A blue arrow points vertically from the top of the "Churchill" box to the bottom of the "FSDragCoefficientModel" box, indicating that Churchill inherits from FSDragCoefficientModel.

Churchill
