

coupledUniformExternalValue
FvPatchField

```
graph LR; A["coupledUniformExternalValue  
FvPatchField"] --> B["autoMap"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains the text 'coupledUniformExternalValue' on the top line and 'FvPatchField' on the bottom line. A dark blue arrow points from the right side of this box to the left side of the right box. The right box is white with a red border and contains the text 'autoMap'.
