

externalIOObject

```
graph BT; extForces --|> externalIOObject
```

A UML class diagram illustrating inheritance. The class 'externalIOObject' is at the top, represented by a white rectangle with a black border. The class 'extForces' is at the bottom, represented by a gray rectangle with a black border. A solid blue arrow points from the top of 'extForces' to the bottom of 'externalIOObject', indicating that 'extForces' inherits from 'externalIOObject'.

extForces
