

interfacialAreaModel

```
classDiagram
    annular --|> interfacialAreaModel
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'interfacialAreaModel' with a red border. Below it is a box labeled 'annular' with a gray fill and black border. A blue arrow points from the 'annular' box up to the 'interfacialAreaModel' box, indicating that 'annular' inherits from 'interfacialAreaModel'.
