

~twoPhaseDragFactor

```
graph LR; A["~twoPhaseDragFactor"] --> B["correct"]
```

A diagram consisting of two rectangular boxes connected by a horizontal arrow. The left box is light gray with a black border and contains the text '~twoPhaseDragFactor'. A dark blue arrow points from the right side of this box to the left side of the right box. The right box is white with a red border and contains the text 'correct'.

correct
