

twoPhaseDragMultiplierModel

```
graph BT; ChenKalish --> twoPhaseDragMultiplierModel
```

A UML class diagram showing an inheritance relationship. The class 'twoPhaseDragMultiplierModel' is at the top, enclosed in a red rectangular border. Below it is the class 'ChenKalish', enclosed in a gray rectangular border with a black outline. A solid blue arrow points vertically from the top of the 'ChenKalish' box to the bottom of the 'twoPhaseDragMultiplierModel' box, indicating that 'ChenKalish' inherits from 'twoPhaseDragMultiplierModel'.

ChenKalish
