

A diagram illustrating a file path transformation. At the bottom is a white box containing a file path for a C source file. A blue arrow points upwards from this box to a gray box at the top, which contains the transformed file path for a header file. The paths are identical except for the final directory and file name.

```
/home/carlo/data/GeN  
-Foam/GeN-Foam_ffn/GeN  
-Foam/GeN-Foam/classes  
/neutronics/diffusion/include  
/createNeutronicsFields.H
```

```
/home/carlo/data/GeN  
-Foam/GeN-Foam_ffn/GeN  
-Foam/GeN-Foam/classes  
/neutronics/diffusion/diffusion  
Neutronics.C
```
