

entriesAxialExp

```
graph RL; forAll[forAll] --> entriesAxialExp[entriesAxialExp];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the left is gray with a black border and contains the text 'entriesAxialExp'. The box on the right is white with a red border and contains the text 'forAll'. A blue arrow points from the right side of the 'forAll' box to the left side of the 'entriesAxialExp' box.

forAll
