The diagram illustrates the relationship between a source file and its corresponding header files. A large gray box at the top contains the full path to a source file: `/home/carlo/data/GeN-Foam/GeN-Foam_ffn/GeN-Foam/GeN-Foam/FMU4FOAM/ECI4FOAM/src/externalComm/networkInterface/websocket.C`. Two blue arrows point from this box to two separate header file boxes below. The left box, with a red border, contains `websocket.H`. The right box, with a gray border, contains `IOmanip.H`.
